NAMASTÉ SOLAR SIGNS NEW LEASE

Namasté will be relocating their Residential HQ

Denver, CO, September 11, 2017– Namasté Solar has just signed a lease for a new property in Boulder, Colorado. The new Namasté Residential Headquarters will occupy 15,132 square feet at 6707 Winchester Circle.

Tanner Mason and Jeff Mason of Benchmark Commercial represented the tenant, Namasté Solar. Hunter Barto of Dean Callan & Company represented the landlord.

"Namasté Solar has seen consistent year-over-year growth since our founding in 2004," said Jason Sharpe, Co-Owner and President at Namasté Solar. "Over the last several years we've outgrown our current Boulder Headquarters in North Boulder. This move to 6707 Winchester Circle in Boulder will allow us to continue to grow while remaining an engaged member of the Boulder-area community."

Jeff Mason and Tanner Mason agree. "In a green industry, Namasté Solar is at the leading edge of their craft. This move will allow them to continue that path forward."

The Benchmark Commercial team would like to congratulate Namasté Solar and looks forward to working with this great company in the future.
